UK Tax Reporting

Upon a realisation or other disposal of shares UK resident investors are liable for income tax on any increase in NAV. There are no UK tax reporting requirements for a tax year in which there have not been any disposals of shares.

Risk Factors

The fund seeks to reduce portfolio risk through diversification of investments, robust security arrangements in the terms of loan notes and limited investment in shares on AIM. However, investors should note that:

- There is no market for loan notes and liquidity is limited on AIM. Consequently, investors may experience delays in redeeming shares if redemption requests exceed the cash resources of the fund.
- Loan notes may experience events of default, in which case the fund may incur a capital loss or be required to enter a re-structuring process to recover its capital.
- AIM quoted shares can experience significant price fluctuations at times of market volatility or upon the announcement of company specific developments. These may affect the NAV of the fund.
